Keycorp Ltd.

KEYCORP LIMITED

MULTOS step/one dual-interface IF1

Functionality and Benefits:

Keycorp's MULTOS step/one IF1 product is the first dual interface step/one product to market. Aimed at the SDA and Paypass markets, it supports Type A or B contactless protocols and MIFARE® as well. It contains a range of popular application codelets in ROM and 8K of EEPROM for application code and data.

Issuers looking to expand their cardholder base, create a real point of difference from their competitors and increase card usage and profitability will find Keycorp's MULTOS step/one dual-interface product combined with MasterCard's EMV application MICA of great benefit.

Product details:

Product Name: IF1

IC Name: SLE66CL80PE(M)

EPROM size: 8K

Latest default AMD: E0085V001

Type Approval Status: Verified

Contactless Interface Type: A or B + MiFare
