

ADVANCED TECHNOLOGY WITH UNIVERSAL SMART CARDS

A Market Leader

Universal Smart Cards is a market leader in the implementation of smart cards and the associated technology. We provide a complete range of smart cards and card readers together with solutions and consultancy services to organisations in the UK, Europe and Worldwide. We can design and personalise your smart cards using our in-house team and advise you on the best technology to protect and enhance the use of smart cards in your organisation.

We have vast experience of working across multiple sectors implementing our technology for; logical access control, physical access control, loyalty and gift cards, cashless vending, education, government, transport and ITS0. We also provide a comprehensive range of personalisation and card printing and encoding services. Ask us about our solutions for Fintech, NFC and IoT sectors.

Expanding our Capability

The robust MULTOS technology is a complementary addition to the extensive Universal Smart Cards product and service offer. Our clients are able to benefit from the high level of service and support provided whilst leveraging the security and flexibility of MULTOS. Universal Smart Cards joined the MULTOS Consortium in 2017, and leverages the industry backed and highly secure MULTOS smart card technology.

Proven MULTOS Security & Quality

MULTOS has been at the heart of the secure smart card industry for 20 years, and over 1 billion secure MULTOS smart cards and devices have been shipped. It is industry renowned as the premier standard of security and quality, and has obtained the highest band of security approval, the Common Criteria EAL7 certification. MULTOS cards are widely issued and provide robust and reliable cardholder services for many applications.
